

Merritt White CRNP is an experienced Acute Care Nurse Practitioner with a specialized focus in cardiac electrophysiology and comprehensive cardiovascular care. She is our most tenured Nurse Practitioner at Alabama Cardiovascular Group and manages complex arrhythmia patients in the inpatient setting. Merritt brings over a decade of cardiovascular and critical care experience, contributing to high-level clinical decision-making, patient education, and multidisciplinary collaboration to improve outcomes for patients with rhythm disorders and advanced cardiac conditions.

Her career spans extensive clinical work in heart transplant, advanced heart failure, and critical care units, as well as procedural nursing in electrophysiology and surgical services.

Merritt has played a key role in developing evidence-based protocols for arrhythmia care, including contributing to the establishment of The Atrial Fibrillation Clinic and integrated EP care pathways at Grandview. She is passionate about advancing cardiovascular care through clinical excellence, patient-centered practices, and continuous collaboration with interdisciplinary teams.

She holds a Master of Science in Nursing with a focus in Adult/Gerontology Acute Care from the University of Alabama at Birmingham, where she also earned her Bachelor of Science in Nursing. Merritt is also certified in ACLS and moderate sedation.
